

WTC HEALTH
CARE
CENTER

Treatment without absence

Gain more time for the
important things with
WTC Healthcare Center.

We've gathered everything you need - just around the corner.

With WTC Healthcare Center, you don't need to take half or full days off to attend treatment or exercise. We've assembled professional practitioners, therapists, specialists, and a fitness center in the heart of Ballerup's business district. You can manage everything during your lunch break - or on your way to and from work. We offer clinics and treatment facilities within both the established healthcare system and other practitioners in health and wellness.

Everything under one roof

What sets WTC Healthcare Center apart is that our practitioners, specialists, and therapists collaborate across disciplines to provide you with optimal treatment and guidance. We are a 'One Stop Health Shop' built on Prevention, Treatment, and Wellness. For instance, you can start with preventive and health-promoting training in our modern fitness center, followed by a visit to the dentist, then receive treatment from an acupuncturist, stress therapist, or reflexologist - and finish with a relaxing massage.

- ⊙ **Everything you need under one roof.**
- ⊙ **Prevention, treatment, and wellness.**
- ⊙ **We're just 'around the corner.'**
- ⊙ **You can manage your treatment during your lunch break.**
- ⊙ **Collaboration across disciplines.**
- ⊙ **Receive optimal guidance and treatment.**
